Collaborative Research in Horizon 2020. Promoting German-Polish Cooperation in EU Research Funding.

The Conference which will take place in the German-Polish twin-cities Frankfurt (Oder) and Stubice (24-25 May 2018) aims at discussing future collaborative EU Research funding opportunities with the objective of fostering German-Polish cooperation. More precisely, it will

- *inform on EU collaboration programmes with a special focus on interdisciplinary research on societies, climate and environment as well as energy-related topics,*
- *bring together researchers, EU research affairs staff in German and Polish universities and research institutions, representatives from the European funding institutions and National Contact Points from both countries,*
- *foster cooperation for future projects through knowledge exchange on relevant projects and research interests among the conference participants,*
- *provide indications on how to address evaluators in EU proposals, especially in Horizon 2020.*
